The 15<sup>th</sup> International Conference on B-Physics at Frontier Machines (Beauty 2014) will take place between 14<sup>th</sup> –18<sup>th</sup> July 2014 at the University of Edinburgh, UK.

The purpose of the conference is to review results in the field of B-physics and CP-violation, as well as to explore the physics potential of existing and upcoming B-physics experiments at frontier machines. We will have an exciting mixture of talks from theory/phenomenology and experimental results on many interesting topics, including CP violation, rare decays, spectroscopy and production of heavy flavoured B and charmed hadrons. The conference will start at 9 am on Monday 14th July and finish at lunch time on Friday 18th July.

Registration and Accommodation are now open.

Please go to the conference webpage <http://www.ph.ed.ac.uk/beauty2014> where instructions for how to register for the conference and accommodation are provided.

Any additional tickets required by accompanying persons for the social programme including the conference dinner can be purchased by selecting "Full Delegate plus accompanying guest" for £400.
